EDUCATION

B. Tech 2023 - Present

Rajarmbapu Institute of Technology | Shivaji University

CGPA: 7.93 / 10

HSC 2022 - 2023

Vidyamandir jr. College| Islampur

Percentage: 74%

SUMMARY

I am a Computer Engineering student at Rajarambapu Institute of Technology, passionate about transforming data into intelligent solutions. With a solid foundation in Data Structures, OOP, and Java, I am actively building expertise in data science and analytics to create a meaningful impact.

ROLES & RESPONSIBILITIES

Rise & Recruit Club, RIT 2025 - Present

Head

- I am leading Placement and career-focused activities.
- Helping students to become industry-ready.
- Organising and managing multiple campus recruitment drives.

Computer Science and Engineering Student Association 2025 - Present

President

- I am leading the student body, representing over 350+ students
- Organising technical workshops and cultural events
- Working with faculty to enhance student resources and facilities
- Organising events for tech fest and other college activities

PROJECTS

Development of Nano-adsorption process for Wastewater Treatment

This project demonstrates that wastewater treatment effectively removes contaminants and reduces undesirable components, making the water suitable for its intended use.

Employee Task Management System Web Development

Built a secure full-stack application with RBAC, real-time notifications, and a task CRUD dashboard; implemented token-based admin restrictions and approval workflows to ensure controlled, transparent task management.

CERTIFICATES

Data Engineering Virtual Internship Certification

AICTE · EduSkills · AWS Academy • 2025

Fundamentals of Data Analytics

Analyttica · LEAPS • Oct 2025

Programming with Java

Java · Object Oriented Programming • 2024
